Especially in the treatment of Bronchial and Cardiac Asthma "FELSOL" is unsurpassed by any other drug or combination of drugs known, *and statistics show that "FELSOL" is successful in 80 per cent. of the Asthma cases* in which it is used, while Adrenalin and other so-called Asthma remedies are usually temporarily successful in 50 per cent. of the cases tried.

Compared to other Asthma preparations the following claims are cited for "FELSOL," *ALL OF WHICH HAVE BEEN FULLY SUBSTANTIATED BY MEMBERS OF THE MEDICAL PROFESSION.*

"FELSOL," whilst free of all narcotics, effects a relief and shortening of the asthmatic attack which is little short of miraculous.

"FELSOL" can be used in cases of Cardiac affection.

"FELSOL" is reliable in its action even in chronic cases of long standing and where other remedies have failed to act.

"FELSOL" may also be used for the Prophylaxis of the attack by taking a few powders the day previous if symptoms of the approaching attack are perceived, which is often the case.

"FELSOL" is not cumulative in its action and the dosage does not have to be increased with the use of the medicine.

"FELSOL" does not produce bad after effects such as headache, vomiting, etc.

"FELSOL" is easily administered by placing the powder on tongue and swallowing with a drink of water. This is of great importance to the general practice and busy physician.

"FELSOL" is always of the same composition and will keep indefinitely.

"BREATHING IMPROVED."

June 6th., 1926.

Gentlemen,

Thanks for sample of Felsol received Saturday, June 5, 1926. I just happened to have a severe case of asthma and casually thought that I would just try your powder on him. He said that half an hour after he took the powder his breathing improved and he slept all night.

Yours truly,

"GOING TO DO GOOD."

Dear Sirs,

I tried the Felsol samples you sent me on a patient and I think it is going to do good. Would you send me 36 powders and also bill at same time and I will pay by return.
